February 2017

Happy New Year Sunburst Members!

I want to first take this moment to wish you and your families a prosperous 2017! I also hope your holiday season was happy, fun and safe and hope under your Christmas tree was a shiny new Corvette, or at least some nice accessories! In that light I think all who attended the Sunburst Christmas Party in early December had a great time as always. As usual it was well attended and Jean Mumford and her team did a great job making sure we all enjoyed it.

I would like to pay special thanks to the outgoing Board for its time and dedication over 2016. It takes time, effort and energy to ensure our club has fun and always moves in a positive direction. Each year every Board member makes a real difference. I invite every member to come to each and every Board meeting to see your club at work. I welcome our new incoming Board and believe we can have as much success in 2017 as we did in 2016.

While we did not have an official General Membership Meeting in January, some of us did meet on our normal meeting night. No, it was not for some secret back room club deals, but to enjoy pizza and each other's friendship at Lou Malnati's in Lakewood. I don't think anyone went home hungry as we indulged on drink, salad, and few varieties of Lou's famous Chicago style pan pizza. Gary Gambala put together a nice slide show of 2016 memories of Sunburst as well for all to enjoy.

While February may be cold and snowy it is not too early to begin planning for the upcoming season's outings and events. The reality is in just a couple of months we may be cleaning out the moth balls, and firing up our cars for the first drive outs! I want to take this opportunity to encourage all members to submit any ideas for consideration. Over the years many great ideas have been discovered only after members had the "courage" to step forward and discuss with other members and/or your Board. Don't be shy.....we will help coach you on any idea. Over the past few years the schedule fills up fast, so step forward with any great idea the moment you discover it.

Gary Gembala is hard at work, already hosting a couple of meetings about this year's Sunburst Car Show. There appears to be a lot of new, fresh ideas and input which may drive us to have the most successful car show to date. To plan, execute and run a show of this size, takes a lot of members help and support. While we do work all day, it is a great way to have some fun, laughs and chat with many members and sell the Corvette hobby to our guests!

Remember, this club is not mine, or the Board's club, it is the members club...stay involved and have fun!!!!

In closing I would like to clear up a couple of things, so the club can move ahead without controversy. First I confess that I have used my personal email server for club business. Second, I have indulged in "locker room talk" in my younger days. LOL. Now that is on the table, let's forge ahead and have a great 2017 Corvette season!!!!

Ron Gliot

February 2017

Think about a FLASH DRIVE

Each time one of us steps into the garage there is our Corvette, covered and cold, wanting to be driven as badly as we wish to take it out.

This makes me reflect on some favorite places we go for short drives, maybe just for a drive, a meal or ice cream because it's a nice day. We generally just "pick up and go" if nothing else is planned. I'll bet many Sunbursters do similar.

So as I begin my role as VP, I would like to encourage more members to initiate spontaneous unscheduled activities for members of our club. A "spur of the moment" Flash Drive is an easy event to arrange and you may be surprised how many cars will join with only a few hours notice. You'll only need to pick a time and provide an address that you can announce - via a Yahoo Blast, or; Facebook Post on the Sunburst site.

As we await the next opportunity to take the Vet out, I'm issuing a challenge for all of us to think about places we might wish to invite other Sunburst members to join. No NCCC release will be required. You'll know the weather. And you'll be wanting to go. My experience is that when two Corvettes arrive in a parking lot, you have a car show. And it provides another opportunity for members to become better acquainted.

When spring driving season begins, I will arrange a refresher presentation on how to use Yahoo Groups and our Facebook site at a Membership Meeting. Then all that is required is your invitation to join you at one of your favorite locations. I certainly hope having more unscheduled, local and simple outings will add enjoyment to being a Sunburst Corvette Club member.

Hi Everyone,

During the December membership meeting I presented membership information to the National Corvette Museum (NCM). Now that SCC has become a NCM Club member, SCC Members who are not a NCM member or signed up for the Free NCCC E-membership in 2016 can receive 25% off a new Individual or Family NCM membership. This makes the Individual Membership \$37.50 (Reg. \$50.00) and Family Membership \$75.00 (Reg. \$100.00). For those planning to make the 40th Anniversary “Rolling to Bowling” drive out in June (6-21 to 6-25), a NCM membership saves you \$5 off the Club visit package price, gives a discount on regular price merchandise at the Corvette museum store, plus saves \$25 off (NCM Member’s cost \$100) a Walk of Fame standard brick (4” X 8”) for those who are planning on having a brick placed by the SCC Club brick. The below Membership form gives you detailed information on the various memberships offered.

To become a NCM member, just complete the attached Membership form and mail it to the NCM as noted in the application on the next page. Please make sure to note on the form the 25% discount price for new Individual (\$37.50) and Family (\$75.00) memberships.

Those who already have a NCM membership, Thank you. If you will be renewing below is a link to the NCM website. I would like to note that if you sign up for a 5 year renewal on an Individual or Family membership you can Save \$50 where the 5 year cost is \$200. The drop down box in the membership renewal area shows the pricing.

<https://store.corvettemuseum.org/membership-bricks/membership-renewal>

Also, here’s a link on the brick information for pre-planning. I will have brick forms at the February and March meetings. I am planning to collect all brick forms by the end of March and will mail them in with the club brick. The Museum needs about 2 months to prepare bricks.

New Exhibit: Celebrating 30 Years of Callaway Corvettes (January 13th thru May 5th)

In 1987 Corvettes got a little faster thanks to engineers at Callaway Cars. What started in the garage of Reeves Callaway’s Old Lyme, Connecticut home has grown into a company with three locations (Connecticut, California and Germany) and four core business units: Callaway Engineering, Callaway Cars, Callaway Carbon and Callaway Competition. In celebration of Callaway’s 40th anniversary, and their 30th anniversary of their relationship with Corvette, the National Corvette Museum’s Exhibit Hall is displaying 15 examples of this high-performance Corvette.

SCC Christmas Party December 3, 2017

The annual Sunburst Corvette Christmas Party was, once again, held at Golf Course Illinois. This was our 7th year in this beautiful banquet room. The food was delicious and the service was superb, as always. Eighty-two guests attended and we are scheduled to return there again in 2018.

Christmas sleigh centerpieces, made by Chairperson, Jean Mumford were raffled off and Ron Gliot returned for the 3rd time as the DJ for the evening's entertainment. Selecting Christmas tunes and dance music, as well as making announcements and helping with raffles, Ron was a huge help.

Mike Stevens, as outgoing president made his final address to the club, entertaining us with humorous anecdotes, introductions and announcements.

Chairperson, Jean sends many thanks out to Ron and Mike, as well as Co-Chair Kathy Samual, who presented appreciation gifts to out-going officers, Lynn Reed and John Henny, who selected the gifts, Mike and Risa Murphy who handled the raffle ticket sales, and Bill Mumford, for all his help and support. Also, many thanks go to all those who attended. We had a most enjoyable evening.

Pizza Party January 5th Lou Malnati's

Once again, Sunburst members celebrated the New Year by getting together for pizza at Lou Malnati's on January 5th. Around 55 members and guests attended and enjoyed a variety of pizza and salad served by Malnati's staff. It was a great opportunity to sit back and relax as members caught up with each other after the holidays.

2017 Charitable Organizations

Honor Flight Chicago was founded to recognize Chicago-land's World War II and Korean War veterans by flying them all-expense-paid to Washington DC for a day of honor, remembrance and celebration. Currently we are flying WWII and Korean War veterans, but we are accepting applications from Vietnam War veterans for future flights. After we have reached out to all WWII and Korean War veterans who are interested, we will begin flying Vietnam veterans to Washington DC.

The Build Team was born out of a shared vision to give back to the community. What started as a brief discussion on a Sunday afternoon, led five business and professional leaders to come together to help local families in financial need with essential home repairs. The Build Team was launched in 2014 with the commitment of efficiently and effectively utilizing its resources and donations to meet those charitable objectives for families in Northwest Cook and surrounding counties in Illinois. The Board of Directors approved our first project in June. In August, the IRS approved our tax exempt status as a 501(c)(3) charitable organization.

Miraculous Multiples Mothers of Twins Club (MMMOTC) is a non-profit support and social group for mothers (or expectant mothers) of multiples (twins, triplets, or more) in the McHenry County area. Membership is open to all mothers of multiples (natural or adoptive).

Pioneer Center for Human Services is a 501(c)3, non-profit charitable organization that provides direct services to thousands of individuals each year. The organization also provides education and outreach to schools and community organizations reaching over 10,000 additional individuals.

Crystal Lake Corps

The Salvation Army is an International, Evangelical Christian Church dedicated to providing individuals worldwide with spiritual, physical, social and emotional support. Our organization is made up of thousands of officers, soldiers, adherents, employees, volunteers and other individuals all working together to bring the Gospel of Jesus Christ to all people, as well as struggling to meet the physical needs of those less fortunate.

The Salvation Army is a nonprofit, tax-exempt charitable organization under Section 501(c)(3) of the Internal Revenue Code. Donations are tax-deductible as allowed by law.

Trivia information was found on the Roger's Corvette Center Website: <http://www.rogerscorvette.com/history.htm>

C4 The “new generation” Corvettes (1983 - 89)

The long awaited, high performance ZR-1 option package was finally publicly available in 1990. It included special rear body panels and an all aluminum small block designated the LT5, producing 375 hp.

All LT5 engines for production ZR-1 option were built by Mercury Marine in Stillwater, OK.

The last year for the Callaway twin turbo option was 1991, selling 62 units at \$33,000 each. In comparison, the ZR-1 option was a “bargain” at only \$31,683.

1991 was the 10th anniversary of Corvette production at the Bowling Green assembly plant.

July 2, 1992 marks the day when the one millionth Corvette, a white convertible, rolled off the assembly line.

1992 saw the rebirth of the legendary LT-1 small block engine as a 300 hp motor with reverse flow cooling and two valves per cylinder.

A special 40th Anniversary model was released for 1993 with one year only Ruby Red exterior and interior colors.

The ZR-1 horsepower rating rose to 405 hp for 1993, but the option cost was held to 1992's \$31,683.

The end of the 4th generation Corvette was marked with two special editions... a “Collector Edition” in Sebring Silver trim and a “Grand Sport” in Admiral Blue with Arctic White racing stripe. A total of 1,000 Grand Sports were built, of these, only 190 were convertibles. Collector Editions comprised 25% of the total production with 5412 units built.

For 1996 LT1 engines required automatic transmissions. The ZF 6-speed was mandatory with the 330 hp LT4 engine option.

Besides the 1990-1995 ZR-1, the 1996 Grand Sports, was the only Corvette ever made with a Unique Vehicle Identification Number (VIN) sequence, separate from all other regular production Corvettes of the year.

The 1996 Grand Sport is readily identifiable by its striking Admiral Blue and Arctic White stripe paint scheme. What many do not know is that the pinstriping on either side of the large white center stripe, is actually a two-color decal, both blue and white. This was done to ensure a perfectly straight line.

Fluids and Lubes

Near the back of your Owner Manual there will be a page listing Common Fluids and Lubricants. The part numbers listed there are often changed after the manual is printed, but when your friendly parts guy looks up the part number you provide, the GM computer will then give them the newer number. Sometimes the new fluid is really different, sometimes GM changes part numbers “just because.”

If you forgot to look in your manual, the parts guy can pull up the list of Fluids & Lubes for your year of Corvette, using his GM computer.

But there is one item that is sometimes shown incorrectly even in the GM computer- the lubricant for the Rear Axle (Limited Slip Differential). That’s because GM came out with a better fluid for 2009 and a bulletin recommending its use in earlier C6’s, but some of the computer info was never updated.

The old fluid required adding a small bottle of special Friction Modifier to the differential after putting in the primary fluid. The newer version fluid is different and does not require the extra additive, in fact the bulletin specifically says **not** to add the modifier. The new stuff works very well, which is why they started using it at the factory in 2009.

The new fluid is called:
“Dexron LS Gear Oil 75W-90”

GM part #88862624, Delco part #10-4034

The new fluid is “back-compatible” and should be good in any C5, C6, or C7 Corvette, not so sure about C4 and earlier.

There are other “aftermarket” fluids that work well, but the GM stuff is readily available (if you get the correct part #!) and works so well that I’ve stayed with it. Our 2009 came with the improved diff fluid, we had it drained/replaced at 50,000 miles and sent a sample of the used fluid to an analysis lab. They said both the fluid and the differential were in excellent condition, and recommended going more miles before the next change. GM does not have a recommended change interval for the fluid on our C6, but something like 50-100 thousand miles sounds reasonable.

C5 Corvette GM (N73 Option) Speedline Magnesium Wheels, plus tires - **\$1300**

RARE OEM (N73 Option) Corvette Magnesium wheels set of 4 . Manufactured by Speedline in Italy for GM, they are no longer available.

They were a \$2000 to \$3000 option depending on model year. They were also limited to Exported Corvettes and an estimated 233 sets were sold domestically. These wheels are in very good condition. There is no curb rash or cracks on any of the wheels. There is a small scratch that was touched up on one of the rear wheels by the valve stem. The inner wheels are also in very good condition with a few marks from wheel weights and stones. I had purchased these rims in 2014 and installed New 2001 to 2004 tire pressure sensors at that time. The tires have a good amount of tread left. There is some inner tire wear on the front tires. Also included are the lug nuts, locking lugs with key and the lug nut covers.

2 – Front 17” X 8.5”, 5 Lug, 4.75” bolt pattern, 60mm offset

2 – Rear 18” X 9.5”, 5 Lug, 4.75” bolt pattern, 65mm offset

This contemporary breakfast and lunch café opened its doors in February of 2008. You'll find plenty of breakfast basics here, but we're also well-known for our decadent twists on the regulars... like stuffed French toast, blueberry bliss cakes and berry explosion waffles. Savory options include and avocado-topped breakfast quesadilla and potato skins filled with scramble eggs, ham, peppers and cheddar cheese.

Brunch Café is perfect place to start your Corvette day. There's plenty of parking and the service and food are both exceptional!
