Message from the President

President
Ron Gliot

May 2017

It looks like the weather has finally broken and Vette owners are out en masse! I can't believe how many Vettes I have been passing when out for a leisurely drive.....we need to teach many "the wave", but hey it is just good to see them out there.

As I sat in the Board meeting last week I was amazed how many events are already developing and beginning to fill the calendar. As always I encourage any member with any new, fresh idea for an event to not be shy and step up. We have plenty of members to assist you to bring the event to fruition, and we will never leaving you without help.

By the time you have read this, many of us will headed out for some great eats at Crandall's on "The Get Your Ride Rolling This Spring" hosted by Mike and Pat Stevens! I hope you didn't miss out!

This month will also play host to the Woodstock Memorial Day Parade, and you guessed it, is a parade on Memorial Day in Woodstock and Sunburst has a long tradition of participating in this one. I invite every member to attend! Stay tuned for details.

I am always impressed with Sunburst's spirit of volunteerism and with that I would like to introduce some new committee members:

Carol Letner- Goodwill Ambassador
Ken Monroe- Cruise Director
Mehlanie Douglas- Historian

Get ready because it appears the 40th anniversary year at Sunburst is going to be a banner year for great events!

Keep the shiny side up and the dirty side down!!!!

Happy Spring Sunbursters

I certainly hope all of you have “unwrapped” your car and gone for an outing. Don’t fail to take a few preventative measures early in the season.

Change your oil. Personally I store with a fresh change and replace again first thing in the spring to remove any condensation from the winter.

Check your tires for:

Proper inflation – correct pressure will be noted on the door jamb, tire sidewall and owner’s manual for your car.

Remaining tread depth – Illinois minimum is 2/32” however less than 4/32” should be replaced due to inadequate braking, especially on wet surfaces.

Tire age - no reputable facility will repair a tire more than 5 years old.

Check the wear pattern and have the alignment checked. Tires for Corvettes are expensive and accurate alignment assures good handling and full tire life.

Have the battery checked. Batteries often fail in very hot weather, and; if yours is under the hood with the engine, it’s life will be shorter than one located at the back.

If you haven’t had your mechanic recently service your car, check your Owners Manual for recommended fluid change intervals plus examine your belts and hoses.

Make sure your outings will be without an unnecessary breakdown.

At the April Membership Meeting, I gave a brief overview of Yahoo Groups intended as a guide for those who might not have had an opportunity to send a message. Below are the salient points for someone to get started. I would encourage anyone getting started to create a message as a test. Someone will let you know it was received. Then, you’ll be prepared when that opportunity arises to sponsor a Flash Drive.

The message will go to at least one person at every member household.

Hello Sunburst Members

At our monthly meeting when addressing my report I realized that there are many new faces out there. I thought this month I would explain what a governors responsibly entails. The easiest way was to copy and paste from NCCC rule book.

CLUB GOVERNOR

You, as Governor, will find that through contact with other Clubs you can exchange many helpful hints on the operation of a Club. You are a reflection of your Club; by your actions other NCCC people form an opinion of your club.

1.13.1.

RECOMMENDED GUIDELINES FOR A GOVERNOR

1. Each Governor should attend National and Regional Governors' meetings. Currently NCCC Bylaws require attendance at a minimum of three (3) National meetings per year. Requirements may be met by sending an alternate from the Club or through proxy with the Regional Executive. A Governor is his/her Club's link with its governing body. It is his/her responsibility to know and understand the working mechanics of the National and Regional Organization and to maintain an open and informative dialogue between each level.
2. You are responsible for all paperwork (i.e. Sanction Requests, Flyers, Event Results, signed release waivers, etc.) regarding your Club's events, having your Club follow the Competition Rule book, and all Governor safety related responsibilities as outlined in Section 1.1.2.
3. Process all your Club's Membership renewals in the time and manner specified by the Regional Membership Director (RMD). (We have a membership Director in Bill Mumford) 4. Report immediately to your RMD any additions or changes to NCCC membership names and/or addresses.
5. Keep National and Regional Officers informed of any changes of your Club's officers so that your Club will receive all correspondence from those officers.
6. Have membership forms on hand to sign up new members.
7. Present a summary of the Board of Governors' Meeting and Regional Meeting at the monthly Club meeting.
8. Announce upcoming Sanctioned Events and encourage your Club to participate as entrants or workers.
9. Obtain answers to questions that Club members have.
10. Correspond with National and Regional Officers as necessary.
11. At the start of each year, give to their Club a short history of NCCC, the National Convention, Blue Bars, the competition program, insurance coverage and other advantages of being a member of NCCC.
12. Urge all NCCC members to buy and display NCCC items.
13. Submit articles and photos to Blue Bars on your Sanctioned Events and/or any interesting information.
14. Introduce your members to the National and Regional Officers.

I will admit that there are things that require more explanation. I will gladly try to respond but sometimes I will have to contact a National Officer for clarification. All governors meetings are held in Saint Louis, Missouri over a two day weekend

2017 Charitable Organizations

Honor Flight Chicago was founded to recognize Chicago-land's World War II and Korean War veterans by flying them all-expense-paid to Washington DC for a day of honor, remembrance and celebration. Currently we are flying WWII and Korean War veterans, but we are accepting applications from Vietnam War veterans for future flights. After we have reached out to all WWII and Korean War veterans who are interested, we will begin flying Vietnam veterans to Washington DC.

The Build Team was born out of a shared vision to give back to the community. What started as a brief discussion on a Sunday afternoon, led five business and professional leaders to come together to help local families in financial need with essential home repairs. The Build Team was launched in 2014 with the commitment of efficiently and effectively utilizing its resources and donations to meet those charitable objectives for families in Northwest Cook and surrounding counties in Illinois. The Board of Directors approved our first project in June. In August, the IRS approved our tax exempt status as a 501(c)(3) charitable organization.

Miraculous Multiples Mothers of Twins Club (MMMOTC) is a non-profit support and social group for mothers (or expectant mothers) of multiples (twins, triplets, or more) in the McHenry County area. Membership is open to all mothers of multiples (natural or adoptive).

Pioneer Center for Human Services is a 501(c)3, non-profit charitable organization that provides direct services to thousands of individuals each year. The organization also provides education and outreach to schools and community organizations reaching over 10,000 additional individuals.

Crystal Lake Corps

The Salvation Army is an International, Evangelical Christian Church dedicated to providing individuals worldwide with spiritual, physical, social and emotional support. Our organization is made up of thousands of officers, soldiers, adherents, employees, volunteers and other individuals all working together to bring the Gospel of Jesus Christ to all people, as well as struggling to meet the physical needs of those less fortunate.

The Salvation Army is a nonprofit, tax-exempt charitable organization under Section 501(c)(3) of the Internal Revenue Code. Donations are tax-deductible as allowed by law.

Corvette History and Interesting Facts

C6 The Refined Performance Corvette (2005 - 2013)

2005

2005 marks the introduction of the sixth generation Corvette... the C6.

A major styling change for the C6 Corvette is non-pop up headlights... not seen on a Corvette since 1962.

2005 was the first year for key-less access and start.

2006

2006 saw the re-introduction of high performance Z06 model, weighing only 3132 pounds with a an 427 cubic inch dry sump engine producing 505 HP.

A six-speed paddle shift automatic transmission as an option in 2006.

2007

Daytona Sunset Orange Metallic, a popular color choice in 2005 & 2006, was replaced by Atomic Orange in 2007, an extra cost color choice.

Two special editions were introduced for the 2007 model year... the Arctic White Ron Fellows ALMS GT1 Z06 (399 built) and an Indy Pace Car replica convertible in Atomic Orange (500 built).

2008

For 2008, a 427-Limited Edition Z06 was made available in Crystal Red Metallic paint with all 505 units hand signed by retiring Corvette Assembly Plant Manager, Will Cooksey.

The total 2009 Corvette production run of only 16,956 cars was the lowest since 1962's production run of 14,531 units (not counting 1997's run of 9752 cars due to late introduction of the new C5).

2009

The 2009 ZR1 Was the first production Corvette to retail for over \$100,000.

In 2009 consumers had their choice of nine different Corvette configurations including coupe, convertible, Z06, ZR1, Competition Sport, and GT1 Championship Editions.

This contemporary breakfast and lunch café opened its doors in February of 2008. You'll find plenty of breakfast basics here, but we're also well-known for our decadent twists on the regulars... like stuffed French toast, blueberry bliss cakes and berry explosion waffles. Savory options include and avocado-topped breakfast quesadilla and potato skins filled with scramble eggs, ham, peppers and cheddar cheese.

Brunch Café is perfect place to start your Corvette day. There's plenty of parking and the service and food are both exceptional!
