Hi Fellow Sunburst Members!

Summer is finally here and it couldn't happen at a better time! There are so many opportunities to take your Corvette out for a ride and enjoy the beautiful weather! There are lots of events you can participate in too. Cruise nights during the week and car shows and driving events on the weekends! If you are going to go to an event, make sure you send a note out on our Facebook Page or to our Groups.io email to let other members of Sunburst know you are going – they might like to join you!

For those of you getting out to these shows/events, make sure you also get some flyers for the Sunburst Struttin' Ur Stuff Car Show to hand out. Since this is an open show to all makes & models, make sure you drop a flyer in any car at any show. Flyers are available at our membership meeting or let Mike Stevens, Mike Rosendahl, or Loren know you need some.

The next few months are loaded with events designed to get the most out of your Corvette and share the good time with your Corvette friends. We have the Memorial Day Parade, Independence Day Parade, Christmas in July Adventure Tour and Mystery Dinner, Founders Day Parade, Auto Cross and More!

There is definitely something for everyone!

At the end of May, Mike Moushey put together a great tour At Schwartz Performance, where they make custom frames and restore and rebuild performance and vintage cars. What an amazing company! We had a great turnout too. Of course, we had to start the event at one of our favorite breakfast places, the Brunch Café!

Just a reminder Sunburst Struttin' Ur Stuff Car planning is in full swing. If you have not already volunteered, the car show committee will be asking for your help at the show. This is Sunburst's biggest fund-raising event. Remember, this is your club, step up and be part of the fun!

Let's not forget to wish our Sunburst Men a Happy Father's Day!

Message from The Governor

Governor

June, 2022

Greeting Sunburst Members,

Memorial Day weekend is in our rear view mirrors and the summer driving season is here. However, the price of gasoline, especially premium, may keep those summer miles a little lower than normal. Regardless, now is the time to enjoy your Vette.

I attended the MWR, and National governor's meetings in St. Louis last month. Here are a few of the items discussed:

- The 2022 NCCC Convention will be held in Atlantic City N.J in June. The 2023 Convention will be held in Bowling Green and the 2024 Convention will be held in Joplin, MO.
- The MWR has 27 Clubs and is the largest region, by membership, in NCCC.
- Nine \$1500.00 scholarships were awarded to students continuing their education in 2022.
- The Regional Awards for Workers has changed and is now referenced to the number of events worked – 21 events.
- A recommendation was made to change the By-laws so that changes in the competition rulebook could be voted on by individual items as opposed to the all or nothing vote now.

The major theme of both meetings was **SAFETY** at competitive events. In 2022 there were a few serious accidents that happened at competitive events, both NCCC events and non-NCCC events. The resulting insurance claims were significant and, in at least one instance, resulted in the loss of insurance coverage for a Western States Corvette Organization.

The loss of insurance coverage is significant, because our NCCC insurance not only covers our competitive events, but it also protects our officers. Sunburst has been fortunate to never have made a claim, but know that protection is there is important to the well being of our members and especially our officers. We were encouraged to intensify our efforts in providing safe competitive experiences for our participants, workers and spectators.

In August and October, Sunburst will be hosting two autocross events at McHenry County College. Mike Moushey and I will be seeking volunteers to help us run the events. We will be reassessing the locations for our corner workers and intensifying our training efforts so that our workers and competitors will be as safe as possible. The changes may slow things down a little, but that will be worthwhile trade-off.

With Memorial Day in mind, I'd like to thank all of veterans for their service. Keeping America safe so that we can cherish the benefits of a free country is a noble and honorable effort.

Christmas in July Adventure Tour and Mystery Dinner

Join us for an afternoon of driving along mostly country roads to several locations, performing a challenge (such as taking a selfie or drawing a card for a poker hand for both the driver and navigator), and enjoying a delicious meal at the mystery dinner location.

Pre-registration until July 10: Register on line through the Member's Only Section on the Club's website. OR you may also register using the registration form available at meetings and making your check payable to Sunburst Corvette Club. The registration fee is \$20.00/car and includes: registration, poker hand prizes, and drawings.

After July 10 and day-of-event registration: \$25.00/car (cash or check payable to Sunburst Corvette Club) includes registration, poker hand prizes, and drawings.

What to bring: Smart phone, clip board, pen or pencil, and your sense of adventure.

Starting Place: Galati's, 800 Feinberg Court, Cary, Illinois.

Important Information: Day-of-event registration from 11:00 to 11:30 am; driver's meeting at 11:30 am; first car off at 11:45 am.

At the starting point, you will be given your initial set of instructions for the first two locations. You can follow the route instructions or input the location's address in your GPS. You will find Sunburst workers at locations number 2, 3, and 4 where you will perform a challenge and receive the next set of instructions. All cars get together at the waypoint (which is a nice park) where we will reveal the mystery dinner location.

Dinner: The location is the mystery. We have found a nice restaurant that is anxious to accommodate us. We are scheduled to arrive at the mystery location between 3:30 and 4:00 pm. Everyone can choose what they wish to eat, get an individual plated dinner, and separate checks.

New Director Of Collections and Education Named By The National Corvette Museum

This past March, Director of Collections and Senior Curator [Derek E. Moore](#) resigned from his position “to take a step back from the rigors of senior leadership responsibilities and spend more quality time with his young family.”

After nearly two decades of moving up the ranks in the automotive museum field, Moore took the position of Curator at the Lane Motor Museum in Nashville, where he returned to day-to-day, hands-on collections work with their expansive and unique collection.

Derek E. Moore

[National Corvette Museum](#)

The search for Derek’s replacement has concluded and on May 24th the National Corvette Museum announce that Brian Baker has been named Director of Collections & Education. Baker joins the National Corvette Museum team from the Automotive Hall of Fame where he served as Vice President of Education and Principal Historian.

Baker’s impressive automotive career spans decades as a General Motors Senior Creative Design Manager and as Vice President of Design and Marketing at American Specialty Cars. With a passion for education, Baker has served as an Adjunct Professor at the Automotive History College for Creative Studies in Detroit, Michigan for over two decades. In addition to his work in corporate automotive design and education, Baker founded AUTOARCHEOLOGY, LLC,

an international Design Consulting Firm, in 2009. Through this company's work, Baker has represented four major automakers as an expert witness in design patent issues.

Baker's depth of knowledge has resulted in him becoming a sought-after expert for the media. In recent years, Baker has served as an assistant producer and on-camera expert for the Discovery Channel and has worked as an automotive historian and analyst for ESPN. He also regularly serves as a writer, editor, and book developer, and he has worked on projects all over the globe including Europe, India, Japan, and South Korea. Baker holds a degree in Transportation Design from the Art Center College of Design in Pasadena, California.

Baker will assume his duties in June.

SPRING BREAKOUT DRIVE – PRIME QUARTER, JANESVILLE WI

You know Spring has Sprung when sports cars once again take to the highway. Seven Sunburst cars caravanned from Woodstock to Janesville for our first event of 2022. C4 to C8 among us and heads were turning as we traveled the hour along Rt. 14. Let's not discuss the construction detour or when the lead driver disregarded his Navigators' instruction to exit, thus adding an additional 15 miles onto the outing!

How does one justify driving to Janesville, Wisconsin to have dinner? Well, by having a near-empty fuel tank. With the price of 93 octane being \$4.289 in WI compared to \$5.119 at my local Shell this at least covered dessert and an adult beverage! Oh, not to forget the companionship over a GREAT steak dinner with Sunburst members, some long-time and several joining for their first event with our club.

That's right, for the past two years we have been unable to hold our spring breakout drive due to the pandemic. Marilyn and I released Iceman from hibernation on April 1st then drove him and had lunch. Talking about upcoming weekends we realized Sunday the 3rd might be our only opportunity since Palm Sunday, then Good Friday, Passover and Easter are the following two weekends.

As snow fell Saturday, the weather outlook both local and for Janesville appeared promising the following day. One of our new members, Eric Kiernan, resides near Janesville so I engaged him to provide personal weather before sending out a Groups io Blast for a Flash Drive. Fifteen respondents and nearly as many, "I wish I could" replies followed.

We've frequented Prime Quarter before and once again the restaurant suited everyone. Some had the chef grill their steak, others began this year's grilling and driving seasons simultaneously. We missed those who couldn't participate and look forward to a normal driving season this year.

Loren welcomed guests Mark and Roxann Renn of Des Plaines who saw the Sunburst group on the Crandall's flash drive. There were no new Corvette arrivals.

Loren requested approval of the minutes from the April 13 membership meeting. Julie Thomas made the motion to approve, Forrest Roberts seconded the motion, and the motion unanimously carried.

Vice President – Jill Gray had nothing to report.

Treasurer – Leo Casanas presented the financials which are in good standing.

Mike then introduced Steve Dorando and Jose Chiapas of Keystone Flooring Systems who are the Club's newest gold-level sponsor. Jose is a Sunburst member. Steve and Jose had a short presentation on their flooring products and are also donating a garage floor treatment to one lucky Club member. There will be a drawing at the next membership meeting to determine who the winner is.

He has been working on a Members Only section on the website where the membership roster, treasurer's report, the event request forms, and more will be posted. Each member will need to create a user name and password. Once created, the website will send Gary a message, and he will approve the request. Eventually, we will be going to an all electronic event request form, which once submitted, will be emailed to all the Board members for approval, and will be emailed to Gary as webmaster and Patti Schultz. The android user issues are being worked on by Eric Kierman.

When Loren asked for a show of hands of how many members were interested in going, he counted about twenty-five people. Loren asked Patti to contact the Shore Club and increase the room block number.

The committee also had a sample lightweight jacket that will be available for purchase. The Club will cover the cost of the Club's logo. If a member wants his or her name embroidered on it, there is \$6.50 charge for the name. Members will need to order their jacket by the July membership meeting.

Please join us in helping the Salvation Army put backpacks together for needy kids. You can get a backpack and fill it with school supplies or just bring in school supplies from the list attached! Everything we do is so appreciated by the families in need in our area! Please bring them in by the July membership meeting as we will be taking them to the Salvation Army that month so they can get them ready for schools starting in August.

Thank you all for your generosity and kindness! It goes a long way!

Center for Independence

The mission of the Center for Independence is to help children and young adults with physical disabilities, like cerebral palsy, achieve their highest level of independence in the home, school, community and workplace. We provide Conductive Education therapy programs that develop life skills and motor function in a matter that promotes positive self-reliance, self-esteem and an "I Can" attitude. We have three convenient locations throughout the Chicagoland area. No child is ever turned away due to inability to pay!

Paws for Pure water

PAWS consists of a small group of women who's mission it is to make and sell mittens, which in turn funds wells in Africa. To date we have funded 16 wells, which come at a cost of \$7,500 each and that is an average sale of 200 mittens. Since we started 7 years ago we have made over 3,000 mittens and made \$112,500.00. All of our mittens are handmade using recycled wool or cashmere sweaters that have been donated or purchased at resale stores. We are dedicated to raising as much as we can, using 100% of our profits, and finding the most competent and economical resource to build clean water wells in deeply impoverished areas of the world.

Pioneer Center for Human Services

Pioneer Center provides three pillars of Human Services to the McHenry County community. Our Intellectual & Developmental Disability (IDD) Services programs promote independence by offering life skills, community inclusion, vocational training and residential programs, each striving to help every person live life to their fullest potential. Behavioral Health Services (BHS) is a collection of programs designed to help youth, adults and families succeed. The support ranges from therapy at our Child & Family Therapy Center, residential program to community support wherever the individual is in need. We operate a 24 hour PADS Emergency Homeless Shelter meeting people's most basic human needs of shelter, food and community support through programs that are designed to assist people experiencing homelessness.

Purrfect Cat Rescue

As animal lovers, we have dreamed of creating a non-profit 501c3 rescue organization in which we could place cats into forever homes with the utmost loving families. Our mission is simple: rescue, shelter, and re-home cats in need. Our goal is to provide a cage-free, no kill shelter environment for the kittens and cats waiting to be placed. We have the perfect building for our rescue. It has everything for our furry friends. Lots of space for cat trees and kitty beds, loads of room for them to stretch and exercise and lots of windows to watch the birds while awaiting their new forever home. An isolation room for newcomers to adapt and get medical attention, a kitten room for our littlest friends. Come for a visit and fall in love today!

Healthy Lombard

Ten community organizations joined together in the Village of Lombard in 2009 to make a difference in the health of future generations. They created Healthy Lombard, a non-profit, 501c3 initiative, to address the epidemic of childhood obesity and to promote a healthy lifestyle for everyone. In an effort to address the stress-related trauma children and their families are experiencing because of COVID, in 2020, Healthy Lombard added a Social-Emotion component to its resources for healthier living.

TWO MINUTE TECH TIP

Jim Downing

GMRS Radios

There are three different styles of radio we can use to communicate between cars while on the road: CB, Family Radio, and GMRS.

The most important thing to remember is that all cars in the group must be on the same style of radio. A CB can't talk with a GMRS, etc.

There is a slight intermix between some GMRS and some Family Radio frequencies, but it's complicated and the range is very limited, so don't plan on it.

A GMRS hand-held radio is very convenient, and almost equal to a mounted CB; good enough to talk with cars close to you in the group, but not further. In a convoy of 7 cars, I often could not understand cars at the other end. Frustrating. And the hand-held uses batteries quickly if you are transmitting often- I need to switch batteries part way through the day and then charge them both at night. If you don't talk much, you might get through a day on one battery. I think of my hand-held as something to keep me going until I get a hard-wired unit with external antenna.

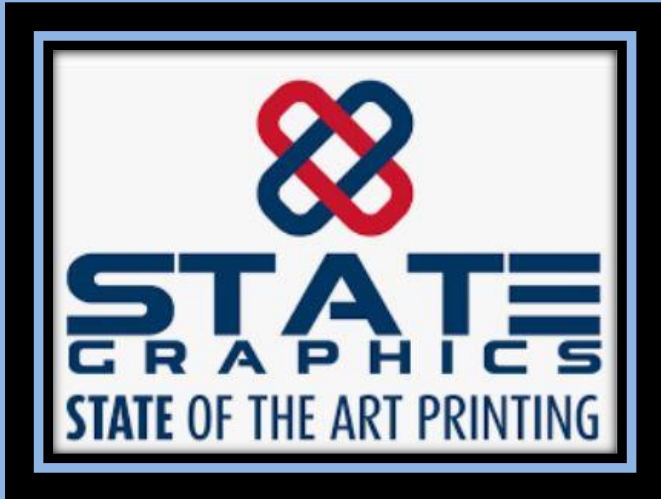

A hard-wired GMRS with an external antenna works great, but the installation and antenna setup can be complicated, and it costs more. They are so much better than the hand-helds that I plan to get a hard-wire GMRS and figure out a good antenna setup, then keep my hand-held as a backup. Some of the Sunburst members who have done this already can help explain to you.

I'll keep my hard-wired CB and external antenna, in case we get time-travel back to the 1970's. They work pretty well but not many people are using them now.

Family Radio hand-helds are super cheap and convenient, but extremely limited range and can't talk with CB/GMRS, so not very useful for us.

10-4, Good Buddy!
