Message from The President

President
Loren
Doppelt

Hello to all Sunburst Members!

This time of year is normally March Madness for College basketball, but for all Corvette owners in Chicago, March Madness takes on a whole new meaning! If you are like me, you are probably itching to take the cover off your Corvette and go for a long overdue ride. Most of us like to wait for a good rain to at least clean the salt off of the streets. Hopefully the ground hog will be wrong this year and we will have an early spring!

The planning for various Sunburst events for 2022 is already underway. We had our first Car show meeting to discuss what is needed for hopefully another record turnout. Mark your calendars for September 18th! Our first event is for the year is the Saint Patrick's Day party which is scheduled for March 12th. Hope you can make it and don't forget to sign up!

We also will have "Flash Drives" throughout the year which have been well received by the membership. In short, these are "spur of the moment" outings that a member puts together to their favorite restaurant or ice cream shop. The "Flash Drives" are announced either through our Groups.io or Facebook page and give members relatively short notice. It would be great to see "Flash Drives" thrive. Anyone can put one together, so be creative and start one! Watch your e-mail and make sure you are receiving our Groups.io blasts.

We have an update to our Board of Directors. Sue Thorson will be assuming the Secretary position. Here is the list of your Sunburst Corvette Club Board of Directors for 2022.

President – Loren Doppelt
Vice President – Jill Gray
Secretary – Sue Thorson
Treasurer – Leo Casanas
Governor – Mike Stevens
Past President – Dee Rosendahl

Sunburst will be celebrating our 45th year as a Corvette Club and I am excited to say we have several volunteers who asked to be part of the 45th Anniversary Committee. They will be planning and putting together activities throughout the year. Thank you to Pam Tidaback, Kris DiGirolamo, Ron Bellack, Scott Schulz, and Connie Borucki for volunteering.

Remember, this club is not mine, or the Board's club....it is the MEMBERS club. Stay active and involved and have fun! The more you put in the more you (and others) will get out!

Our next General Membership meeting is Thursday March 3rd at Galati's. Our next Board Meeting will be held Wednesday, March 9th at Galati's. All members are welcome to attend to see your Sunburst Board in action!

Have a great March everyone!

Message from The Governor

**Governor
Mike
Stevens**

Greetings Sunburst Members,

Spring is right around the corner and before you know it, it will be time to get your Vette out of hibernation. As the days grow longer the hope for warmer weather grows as well. I really don't have much to share regarding NCCC, at this time. The Midwest Region Governors, as well as the National Governors, will be meeting in St. Louis this coming weekend, so I should have some interesting updates at our March Membership meeting.

This may be a good time to introduce or reintroduce the Future Corvette Owners Association (FCOA). In 1991 a group of NCCC members were interested in promoting the "Corvette hobby" to a younger audience. Their hope was to keep the spirit of camaraderie and competition alive on future generations of Corvette Owners. Since its inception thousands of youngsters became part of the Corvette Community through FCOA.

You can register your niece, nephew, grandson, granddaughter or the neighbor kid that mows your lawn for membership in FCOA for the \$10 fee. This one-time fee covers the youngster until they turn 16yrs old. What does the youngster get when they become a member? Although the contents of the membership package have changed over time, it usually contains a membership card, refrigerator magnets, note pad, dash plaque and stickers along with a personalized letter welcoming them into the "Corvette Community". It also helps create a special bond between you and the child you registered.

Currently, there are over 200 FCOA members nationwide. In the Midwest Region there are over 381 members, with Windy City Corvettes leading the pack with 121 members. All four of our grandkids were thrilled to receive their membership package and I know a number of Sunburst members have registered a child, as well. Something to consider, if you're looking for a gift that's a little different, but has the opportunity to bring you closer to someone you care about. Go to <corvettesnccc.org> click on the FCOA logo in the bottom left corner of the menu boxes and you'll be able to find out more about FCOA and get an application.

Here's hoping for an early spring and wonderful driving season ahead in 2022.

Eight Years Since the Corvette Cave-In – The Skydome Sinkhole Experience

The National Corvette Museum made international news headlines on February 12, 2014 when

a sinkhole collapsed in the Skydome of the Museum in the wee hours of the morning. Thankfully, no one was in the building when it happened, but security cameras were rolling to catch the incident on camera. Museum visitation skyrocketed that same year as people from around the world were drawn to witness for themselves the destruction Mother

Nature had caused. Though the sinkhole has since been filled, the story continues to draw attention.

February 12, 2016 (the two-year anniversary of the sinkhole) a new exhibit opened to tell the story of what happened that day, why it happened, what cars were affected, how they were recovered, what karst landscapes and caves are, how the building was fixed, and much more. Learn more about the elements of the NCMs Sinkhole exhibit below!

- **The Day**
This portion of the exhibit explores what happened on February 12, 2014. While the story made international headlines and many remember seeing security footage of the Corvettes falling into the sinkhole, some may not be as familiar with the story. A panel briefly gets visitors up to speed, with one screen looping the security footage and another playing media clips from the day.
- **Media Coverage**
Corvettes are eye-catching, even when they lay mangled in the bottom of a 30-foot sinkhole. The story swept the nation and abroad – and this section covers some facts about the media coverage as well as several clips from cable documentaries to prime-time national news outlets.

- **Pop Culture**
An unexpected result of the sinkhole was the amount of interest on social media, from tens of thousands of shares, to hilarious memes and parodies, to a growing interest in the Museum. This section of the exhibit delves into the pop culture sensation the sinkhole became.
- **Cars Affected**
“Some tears were shed,” is how then Museum Executive Director Wendell Strode described the news of eight Corvettes falling victim to the sinkhole. This panel provides photos, videos and facts on each of the cars, as well as an interactive “before” model of each Corvette. An illuminated acrylic case illustrates precisely where each car fell into the hole.
- **The Recovery**
The recovery of the Corvettes from the sinkhole was no easy task! While you can see short video clips and photos of the process within the Cars Affected section, you can get behind the controls of a crane at the interactive game within “The Recovery.” Guests of all ages will enjoy digitally recovering all eight cars and putting them safely in their garage bays.
- **Karst Landscapes**
For much of the country, the idea of caves and sinkholes can be interesting, and sometimes scary. For residents of South Central Kentucky they are a way of life. This section gives a deeper look at what lies beneath our feet. What exactly is karst? How are caves formed? What kind of sinkholes are there? Are you safe? There is even a few samples of rock formations from our cave – including one that took tens of thousands of years to form!
- **What It Took to Fix the Sinkhole**
One of the most common questions is, “Is the hole filled?” Yes, it is, but it was quite the engineering feat to do so! This section illustrates just what went into filling the sinkhole with an illuminated acrylic case showing each micropile that was installed in the ground. Read about some of the engineering involved in the process and why the Skydome is now one of the safest spots sitting on a cave, then watch a quick time-lapse video of the process! Interact with the responder wall, twisting and turning the digital image of the cave to see just how big it is while reading a few interesting facts about its size. Then, check out the live webcam feed from inside the cave! There are even a few hidden Corvette parts that you can search for by panning, tilting and zooming the camera.
- **The Grand Finale**
Ever wonder what it might be like inside a cave, when suddenly it starts to collapse? Sounds a little scary, right? Well, for a safer experience, venture into the mini cave for a virtual simulation of a collapse. Once its done you’ll exit into our Skydome to continue your tour. While you wait for the simulation to begin, enjoy the trivia kiosk just outside the “thunderdome” to test what you’ve learned throughout the exhibit.

- The Actual Cars

Your educational journey through Corvette Cave In will lead you to the Skydome where all eight of the “sinkhole Corvettes” remain on display. See the two Corvettes restored by General Motors, as well as the other six cars that look just as they did after being rescued from the sinkhole.

- Look Below the Surface

At the edge of the sinkhole Corvette display you will not want to miss our 48” manhole that leads into one side of our cave. During the sinkhole repair process the museum was able to add the manhole to provide access to the cave, and you can peer into the window to see the floor of the sinkhole, over 30 feet down! This passageway then slopes down into the cave, providing some interesting terrain under the surface!

This special exhibit provides a little soothing for everyone. This is a exhibit you do not want miss on your next visit to the NCM.

NCM Corvette Raffle

The National Corvette Museum conducts a series of raffles each year as a way to raise funding for the day-to-day operations of the Museum. The raffle fundraisers are a tremendous help to the Museum and a large part of our planning and daily operation funds.

All raffle winners will also enjoy the benefits and excitement of taking delivery of their new Corvette at the Museum as part of the “R8C Museum Delivery” experience. A VIP tour of the Museum and Corvette Assembly Plant (if available), one-year individual membership to the Museum, hands-on training/instruction by a NCM delivery team member, program decal and a wall plaque are all part of the Museum Delivery experience that is available exclusively through the Museum. R8C deliveries are viewed world-wide via the Museum’s webcams.

Winner/Purchaser must be 18 years old with a valid driver’s license.

Licensed by the Kentucky Department of Charitable Gaming – License Number ORG0000854

Watch Drawings LIVE!

You can watch raffle drawings live on the [Museum webcams](#), or on NCM [Facebook page](#). The webcam varies by drawing but is typically on one of the Delivery cameras. No sound is available on NCM webcams. On Facebook, the drawing's live stream will pop up on the page approximately 1 minute or less before the drawing.

2022 Charities

Three of our five 2021 Charities were present at our February Membership Meeting to receive their \$1500 donation checks from Sunburst!

Elgin Symphony Orchestra

Open Heart Magic

American Brain Tumor Association

Center for Independence

The mission of the Center for Independence is to help children and young adults with physical disabilities, like cerebral palsy, achieve their highest level of independence in the home, school, community and workplace. We provide Conductive Education therapy programs that develop life skills and motor function in a matter that promotes positive self-reliance, self-esteem and an "I Can" attitude. We have three convenient locations throughout the Chicagoland area. No child is ever turned away due to inability to pay!

Paws for Pure water

PAWS consists of a small group of women who's mission it is to make and sell mittens, which in turn funds wells in Africa. To date we have funded 15 wells, which come at a cost of \$7,500 each and that is an average sale of 200 mittens. Since we started 7 years ago we have made over 3,000 mittens and made \$112,500.00. All of our mittens are handmade using recycled wool or cashmere sweaters that have been donated or purchased at resale stores. We are dedicated to raising as much as we can, using 100% of our profits, and finding the most competent and economical resource to build clean water wells in deeply impoverished areas of the world.

Pioneer Center for Human Services

Pioneer Center provides three pillars of Human Services to the McHenry County community. Our Intellectual & Developmental Disability (IDD) Services programs promote independence by offering life skills, community inclusion, vocational training and residential programs, each striving to help every person live life to their fullest potential. Behavioral Health Services (BHS) is a collection of programs designed to help youth, adults and families succeed. The support ranges from therapy at our Child & Family Therapy Center, residential program to community support wherever the individual is in need. We operate a 24 hour PADS Emergency Homeless Shelter meeting people's most basic human needs of shelter, food and community support through programs that are designed to assist people experiencing homelessness.

Purrfect Cat Rescue

As animal lovers, we have dreamed of creating a non-profit 501c3 rescue organization in which we could place cats into forever homes with the utmost loving families. Our mission is simple: rescue, shelter, and re-home cats in need. Our goal is to provide a cage-free, no kill shelter environment for the kittens and cats waiting to be placed. We have the perfect building for our rescue. It has everything for our furry friends. Lots of space for cat trees and kitty beds, loads of room for them to stretch and exercise and lots of windows to watch the birds while awaiting their new forever home. An isolation room for newcomers to adapt and get medical attention, a kitten room for our littlest friends. Come for a visit and fall in love today!

Healthy Lombard

Ten community organizations joined together in the Village of Lombard in 2009 to make a difference in the health of future generations. They created Healthy Lombard, a non-profit, 501c3 initiative, to address the epidemic of childhood obesity and to promote a healthy lifestyle for everyone. In an effort to address the stress-related trauma children and their families are experiencing because of COVID, in 2020, Healthy Lombard added a Social-Emotion component to its resources for healthier living.

How to Update the “Maps” in a C6/C7/C8 GPS Navigation System

Since 2005, Corvettes can be ordered with a built-in GPS Navigation system. Some people love ‘em, others hate ‘em. That’s a discussion for another time. If you have the system and would like to update the map information, here’s how. Keep in mind that the system doesn’t stop working as the map gets old, it simply can’t find newer addresses and roads.

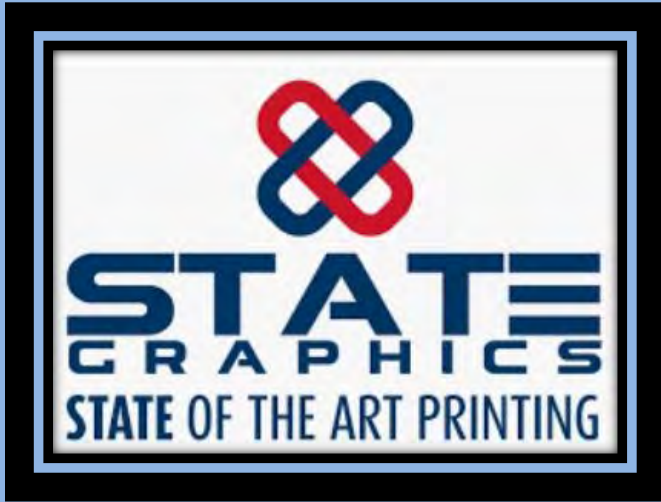

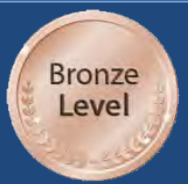

C6 (2005-2013)- The map data is on a DVD disc that you insert into the system and leave there. Some years had 2 discs (East & West), others have all the information on just one. The final C6 version that GM produced is dated 2016, v.10, all info on one disc. GM doesn’t make them anymore, you must buy used or pirated. Google “2013 Corvette Nav Disc for Sale”. You’ll get lots of “hits” but most will be for pre-2016 discs, some will be misleading about what year. Best to go for 2016 v.10. Pirated copies usually work, but inspect carefully to be sure the label is firmly attached. When you insert the disc, it may take several minutes for the system to recognize it. If necessary, eject and re-insert to try again.

C7 (2014-2019)- GMNavdisc. The map data comes on a thumb drive that you download into the Nav system while the car is running but parked. There is a misprint in some of the instructions that says you can drive the car while updating- don’t drive it. Remove the thumb drive when finished, save it “just in case”. When the thumb drive is made, it is made to work **only** in the car VIN that you provide. So unless someone cracks the GM code, you can’t use someone else’s thumb drive to update your car. And when GM stops making C7 updates, you won’t be able to purchase any update at all- my update simply won’t work in your car. The current 2022 version is now three years past the end of C7 production, it might or might not be the last one available; GM has not told us in advance when they will stop making updates. **If** you like the system, and **if** you plan to keep your car a long time, and **if** your last update was more than a couple of years ago, this might be the time to pay their ripoff price of \$160 for the update. When a new update becomes available (usually in Fall), they often sell it at a reduced price of about \$90 for the first few months, but we don’t know if they will make a 2023 version.

C8 (2020-xxxx)- GMNavdisc. The C8 uses a system similar to the C7, and the update is also specific to the VIN in your car, so you can’t buy used or pirated copies.

Happy Motoring!

Jim

SUNBURST CORVETTE CLUB Sponsorship Opportunity

Greetings,

We are pleased that you have expressed an interest in sponsoring **Sunburst Corvette Club (SBCC)** and would like to provide you more information on our club and the opportunity for a partnership as a sponsor.

Sunburst has been an active club within the Northwest Illinois Counties for over 45 years and is a 501c3 non-for-profit organization. We have a current membership of over 130 Corvette enthusiasts and are one of the largest clubs in the Northwest Region of the National Council of Corvette Clubs (NCCC).

We enjoy hosting many Corvette related events and activities throughout the year i.e.

- **Monthly Club Meetings**
- **Fun Rallye's**
- **"Struttin Ur Stuff" Car Show**
- **Cruise Events**
- **Parades**
- **Sponsor Events**
- **Autocross Racing**
- **Cruise Nights**
- **Competitions at local / regional level**

We take much pride in giving back to our communities and each year we donate all of our net proceeds to local designated charities. Our funding is generated from club dues, sponsors, and funds raised at club events. Each year we donate an average of ~\$4,000 to our 5 designated charities within our local communities.

In exchange for your annual sponsorship fee, your sponsorship level business ad will be published in the award winning monthly **"Sunspots"** newsletter and also posted on our website with a link to your business website. Your business will also be highlighted at our monthly meetings on your initial sponsor month and each anniversary date you renew. You will also receive a recognition sponsorship plaque to promote your support for the club. Additionally, our membership takes pride in supporting our sponsors throughout the year.

Please feel free to review our website referenced at www.sunburstcorvetteclub.com to view the newsletter and more information on our various activities and the sponsorship pages.

Our monthly membership meeting occurs on the first Thursday of every month (except January) at Galati's Hideaway located at:

800 Feinberg Ct.
Cary, IL 60013

The meeting starts at 7:00 PM but members arrive earlier to eat and socialize beforehand.

Potential members are always welcome to see what we're all about!
